ORPHAN HIGHLIGHTS

MUNANA GWATIDZO OF SHAMMAH HOUSE

Yes!! This was a surprise birthday celebration time for Munana in February this year. Shammah House Parents Daniel and Miriam surprised Munana with a big birthday cake at school to share with friends.

Munana Gwatidzo came to the home when she was 4 years old and is now a grown-up brilliant girl, aged 16. She is now in Form 1 (Freshman Year) at UMAA Mission, which is a Senior High Boarding School. She is doing 14 subjects and plays soccer on the junior girls' school team. Amazingly, one of her practical subjects is Woodwork technology and design. Munana loves God and likes listening to praise and worship songs.

TAWANA NYASHA TIZORA OF THE CHILELEKO HOME

Ten-year-old Tawana was admitted to the Chileleko Home when he was 5 years old. When he arrived, he was malnourished, as many of the arriving residents were, and hard of hearing. He had been abandoned by his mother, who left him with a neighbor and never returned. The staff and children of the Chileleko Home learned sign language so that they could communicate with him. He was gifted with some secondhand hearing aids by a Zimbabwean donor and sent to a school for the deaf. When Stephen and Cassy visited Chileleko in 2025 and saw his need firsthand, Jonathan's Impact purchased new hearing aids specifically designed for him, which have helped him tremendously. His speech is still very difficult to understand, so Jonathan's Impact will be funding speech therapy for him. Without your support, this would not be possible. Thank you for helping to change the lives of these children, giving them a hope and a future.
